# Well Metrics

- Well costs comprise durations and spread-rate.
- Spread-rates are potentially commercially sensitive.
- Durations are arguably not commercially sensitive
- Some duration information has already been shared
- The proposal is to share duration information

# CNS/NNS Well P&A Durations: (1)

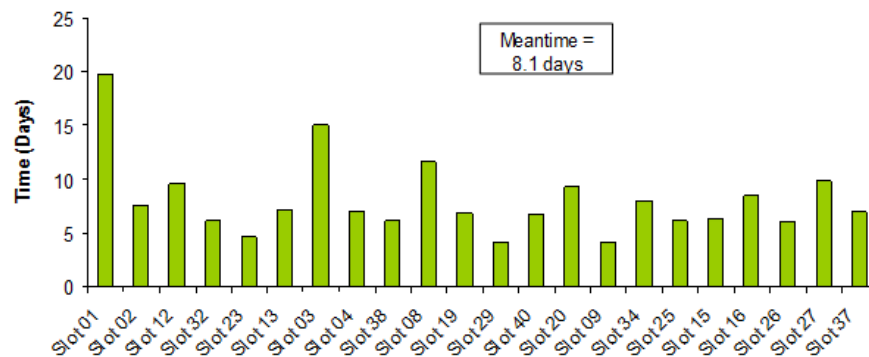

## Well P&A

### Reservoir Isolations (Phase 2 & 3)

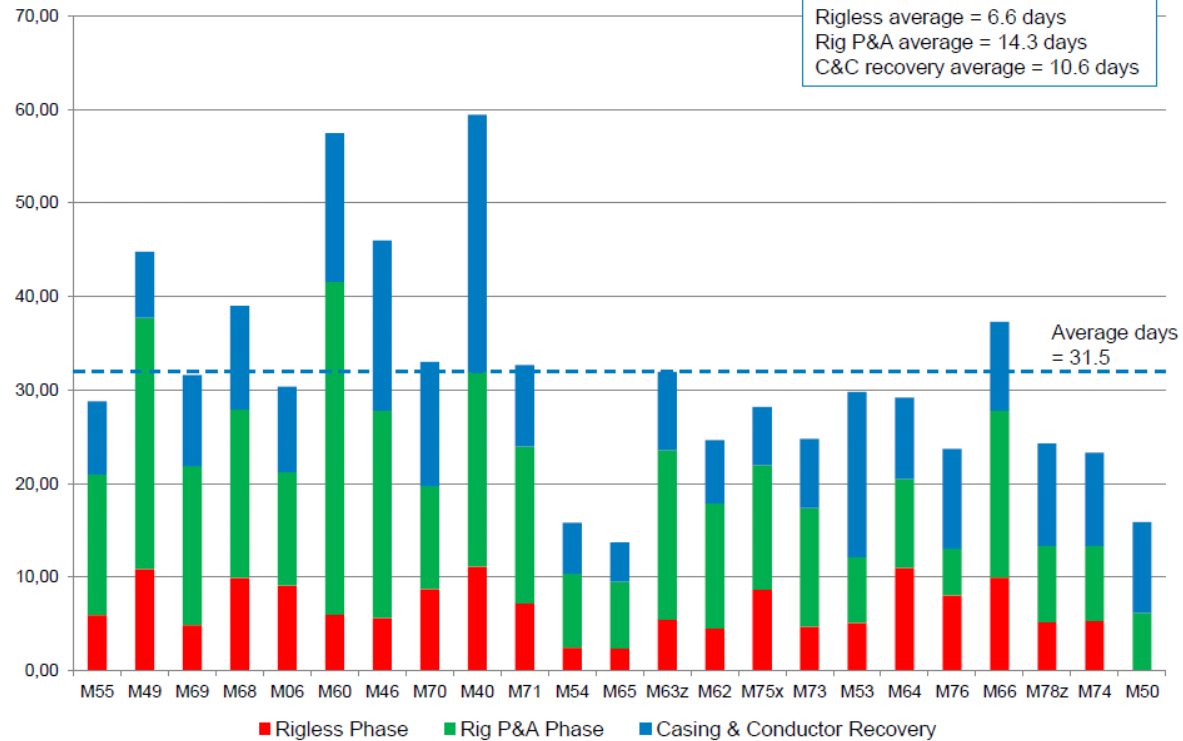

## Conductor recovery

### Recovery Time Analysis (Phase 4)

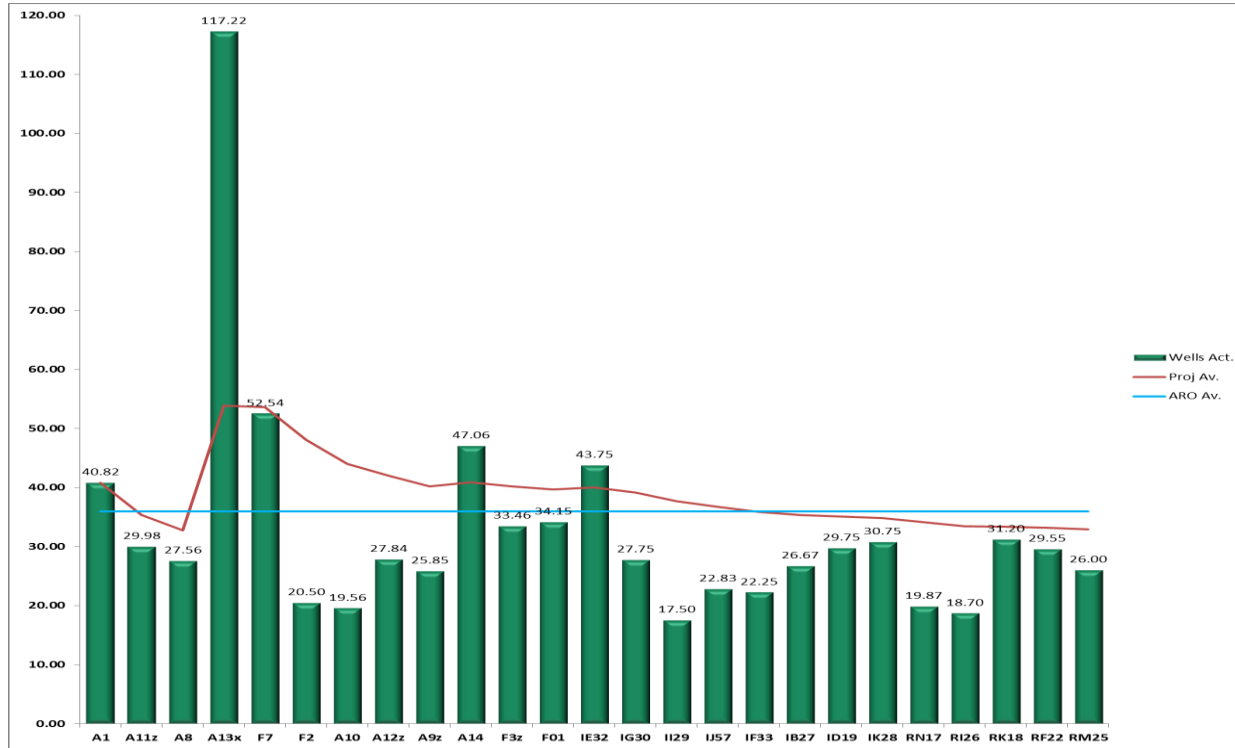

# NNS/CNS P&A Durations (2)

## P&A Phase Durations

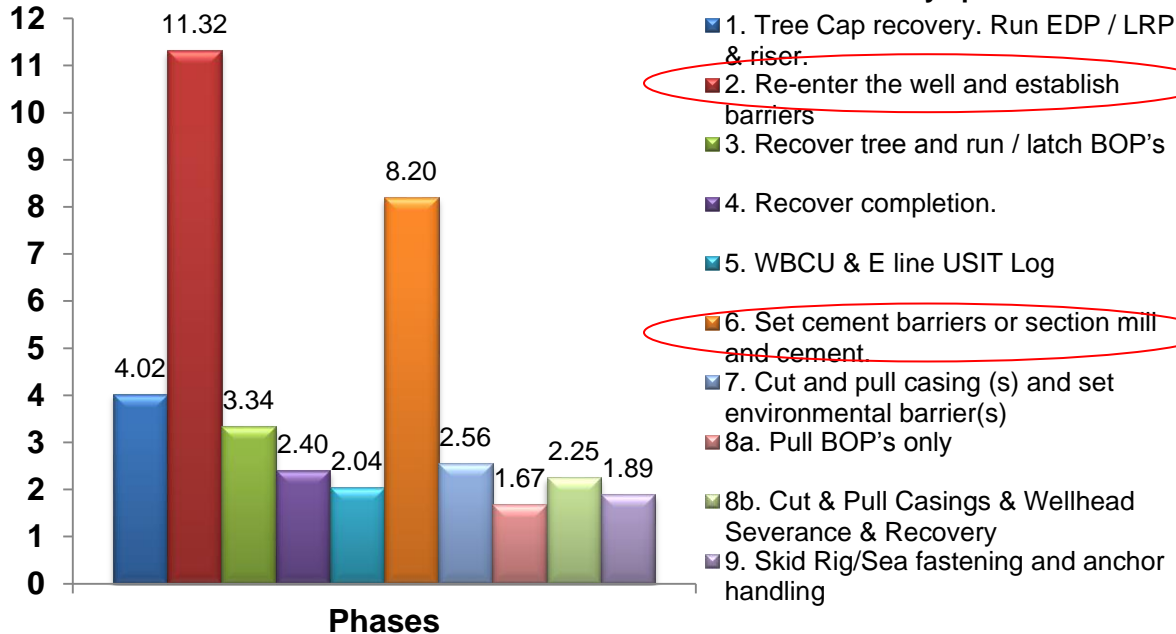

# P&A Performance: CNS Sub-Sea wells

# CNS Sub-Sea Average Days Activity

## Decommissioning Phase average

Average 39.71  
days per well

# Path Forward

- Agree in principle to share information on durations
- Agree the well activity breakdown
- Agree the method for collecting and aggregating data
