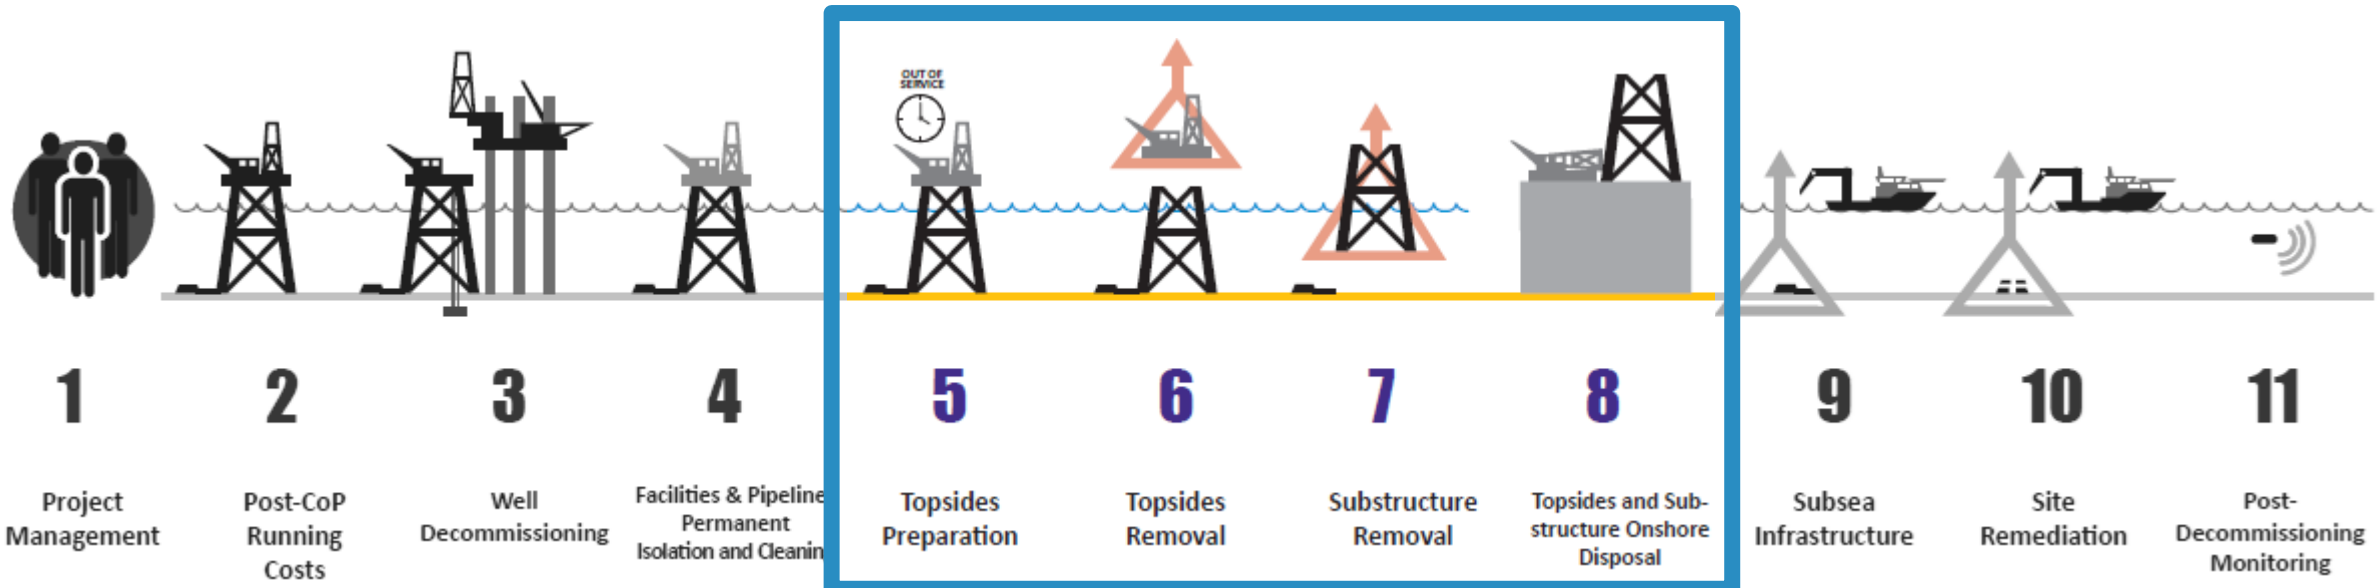
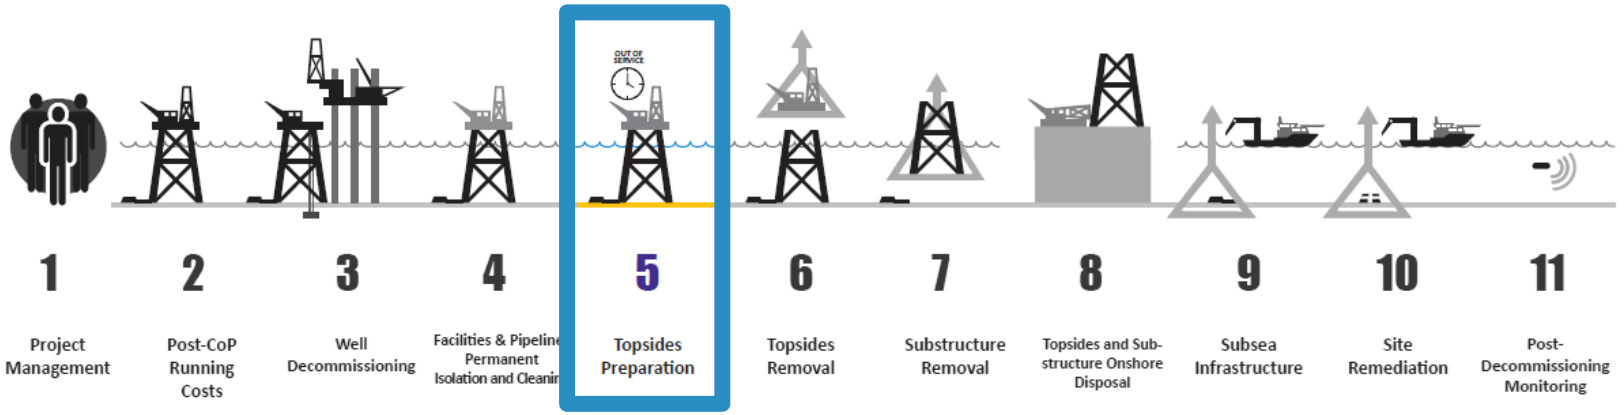
DECOMMISSIONING BREAKDOWN

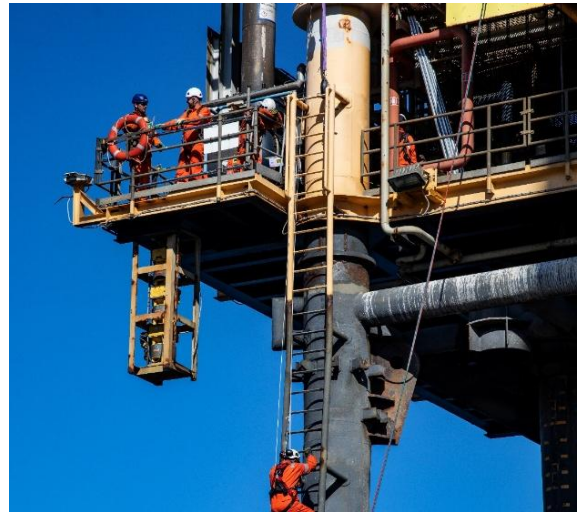


OUR CORE BUSINESS

EPRD PROJECTS:
Engineering, Procurement,
Removal and disposal

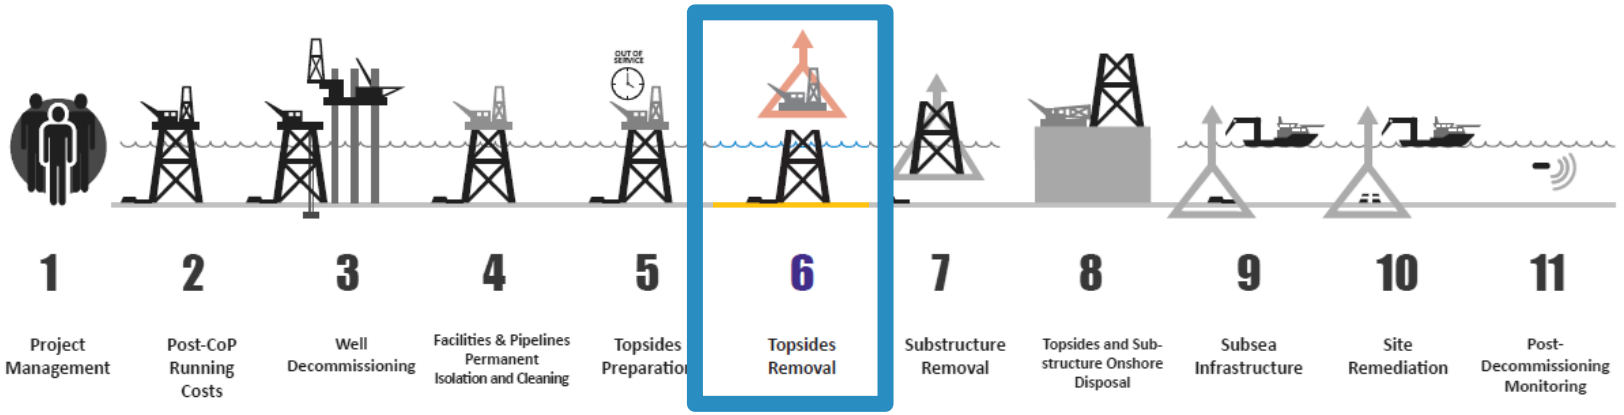
DECOMMISSIONING BREAKDOWN – TOPSIDES PREPARATION





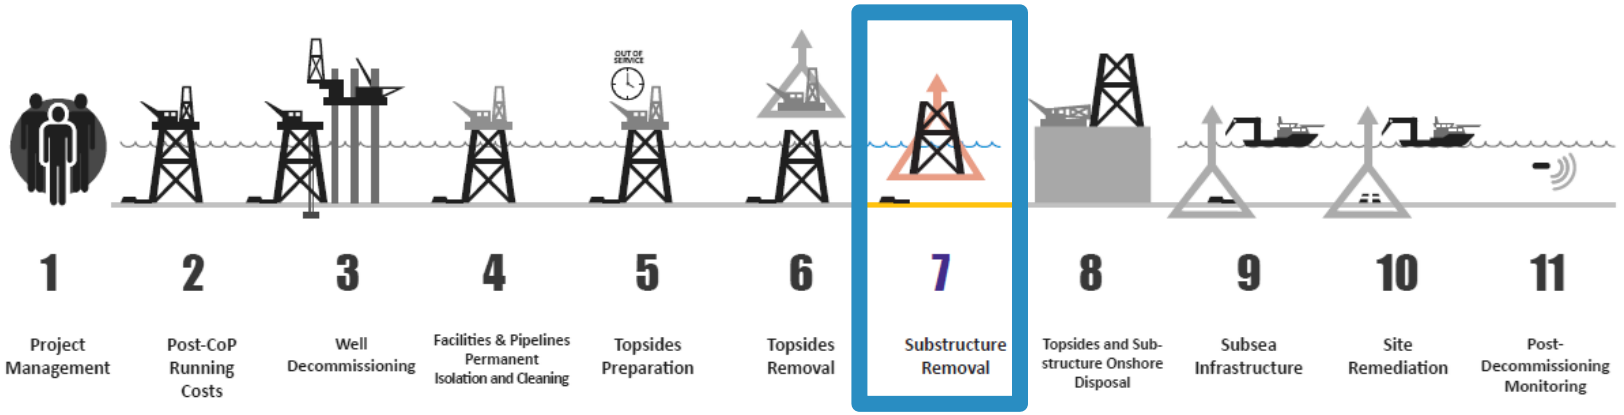
Preparing topsides for lift including make safe campaign, sling path clearance, weight shedding and scaffolding.

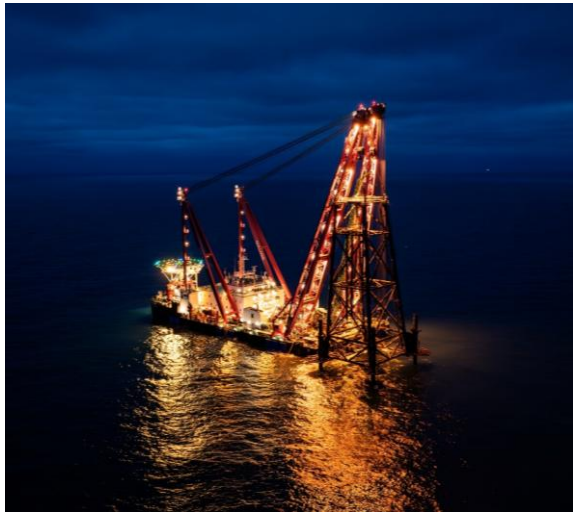
DECOMMISSIONING BREAKDOWN – TOPSIDES REMOVAL

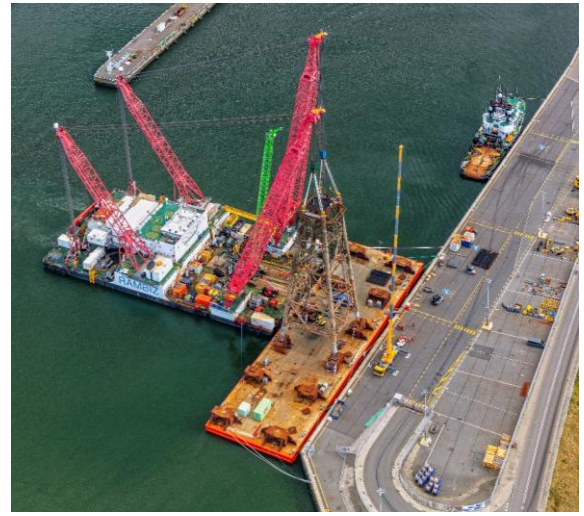


Heavy-lift vessels take the topsides off the platform in a single lift or in modules. Transport by hook or on a barge.

DECOMMISSIONING BREAKDOWN – SUBSTRUCTURE REMOVAL

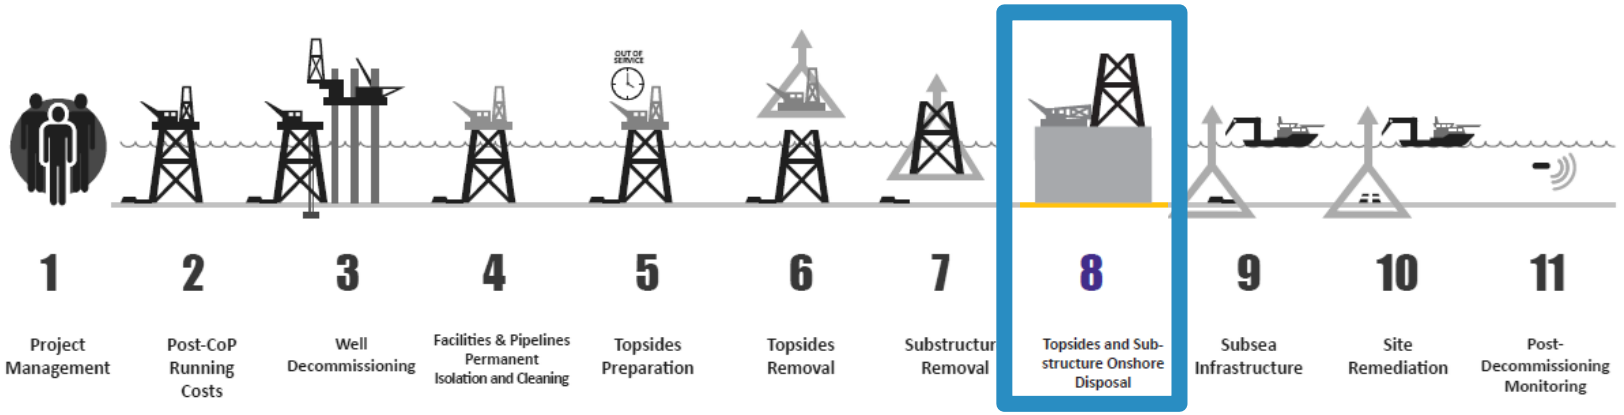


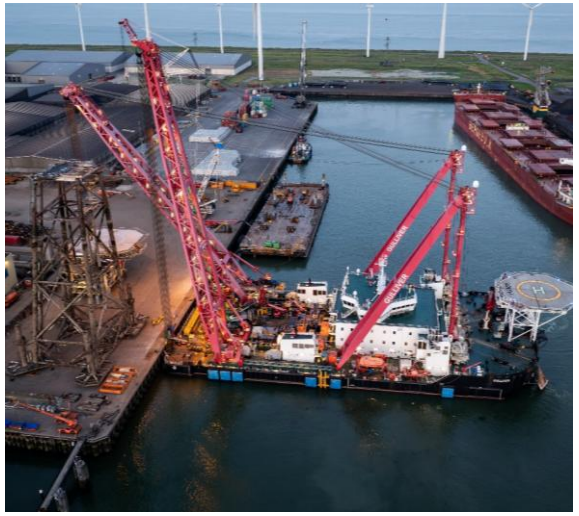


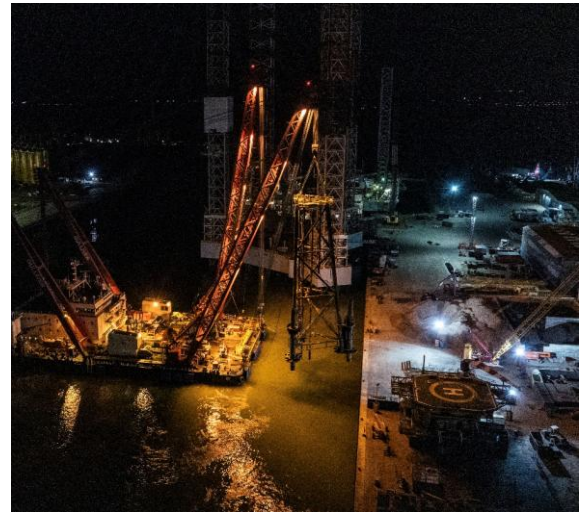


Jackets are dredged and cut prior to lifting and transport by hook or on a barge.

DECOMMISSIONING BREAKDOWN – ONSHORE DISPOSAL







Removed structures are brought ashore for dismantling, recycling and responsible disposal.
