We are an **independent operator** with a growing business, guided by our core values: **Responsibility, Excellence, Passion.**

We operate **25** gas fields in the SNS, and process gas from **10** fields operated by others.

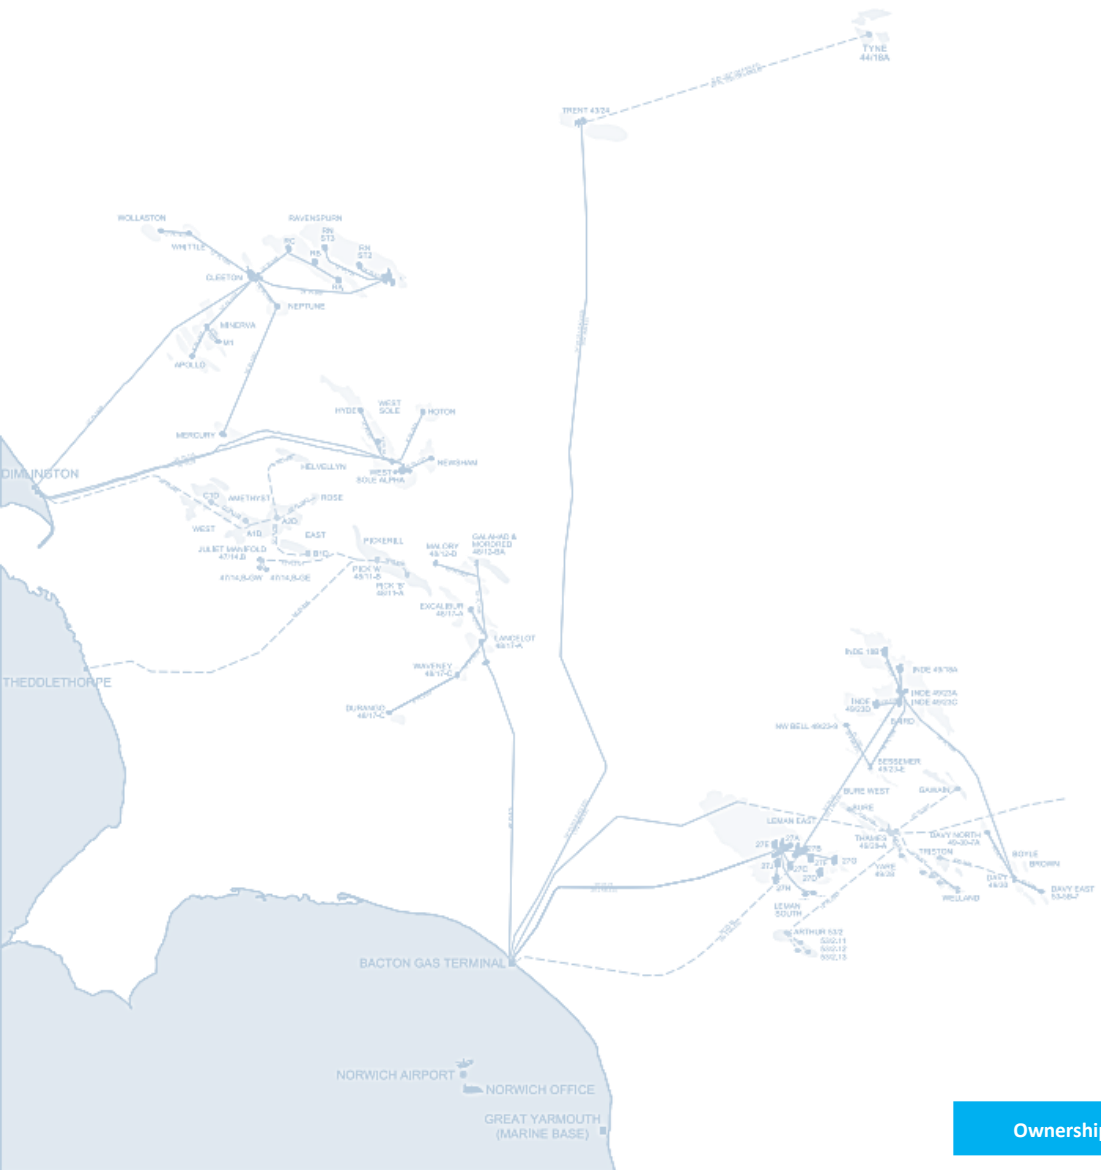

We operate **3** manned assets, **37** Normally Unmanned Installations.

We operate **2** onshore terminals with **~1/3<sup>rd</sup>** of the UK's domestic gas production flowing through them.

We have safely and effectively been decommissioning since **2010**, and expect to continue beyond **2030**.

We believe in **innovation** and finding **safe solutions** to all challenges.

**Perenco Group:**  
Each entity focuses on its core business

**Perenco UK:**  
Focus on safe and efficient gas production

**Decommissioning Operator:**  
Appoint specific decommissioning operator for Perenco UK assets (where suitable)

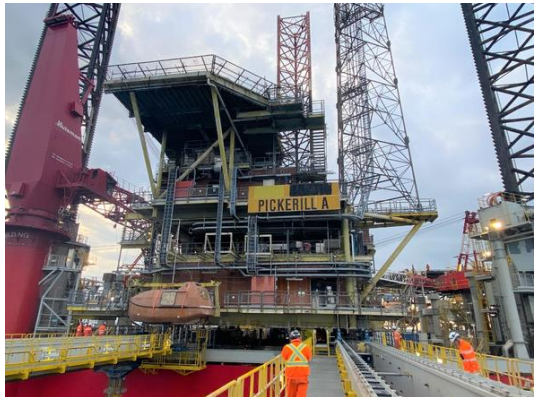

***Combined Decommissioning Vision:***  
**Simplify** organisations and workflows resulting in **safer** and more **efficient** operations.

# Perenco UK – What we have decommissioned so far:

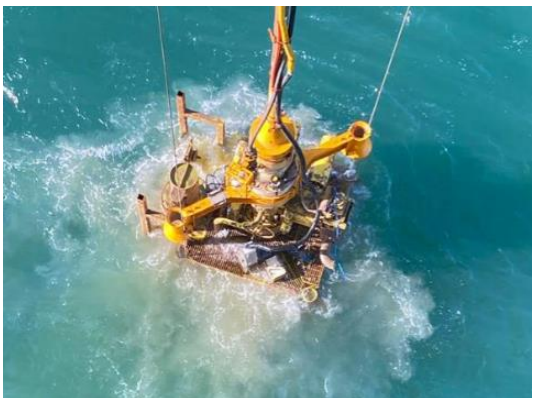

# Perenco UK – What we have decommissioned so far:

>200 WELLS  
ABANDONED
