

Offshore Wind Decom Network

What's Next

Guideline & WBS

- Further develop with case studies
- Engineering deep dives – transition pieces, GBS re-float and maintenance
- Benchmarking – what's been done and how does this compare with other markets

OWDN & OW Forum

- The OWDN is now coming together with the Offshore Wind Forum within OEUK
- Get involved, shape our projects

Circular Economy Technical Group

- Share knowledge
- Maximise opportunities to reuse/recycle
- Develop UK capability
